1.0 Work Session

The work session began at 10:00am.

The District's metering goals were discussed. The Board requested that the District Manager add metering to the list of Capital Improvement Projects with a target year of 2025 and a dollar amount of one million dollars. The Board thought it would be helpful to meet with some metering vendors. The Board continues to be in agreement with regard to eventually change from bimonthly meter readings to monthly meter readings. The Board does not agree on the best path for the District to achieve this goal. The Board agreed that the next planned work session should be in September 2020.

2.0 Adjournment

The meeting adjourned at 11:41am.

Secretary, James Maras
